

Easter.
We have always thought that one of the time honored humbugs was the manner in which Easter was fixed. Christ was supposed to have been crucified on Good Friday, and he arose from the tomb on Easter. These events occurred on certain days of the month; therefore, the anniversaries should always occur on the same days of the month. But they have been regulated by the full moon, and some years Christ was crucified and arose more than a month earlier or later than in other years. This year there is a peculiarity about it that is said never to have occurred before since the Christian Era. Easter is the first Sunday after the first full moon that occurs on or next after the vernal equinox, the 21st of March. This year the full moon occurred on the Pacific coast before midnight, Saturday night, March 28. In the rest of the world east of that, it did not occur until Sunday morning. Therefore, to be within the rule, last Sunday should have been Easter on the Pacific coast, and next Sunday will be Easter in the remaining part of the world. In other words, Christ was murdered a week earlier in California and Oregon than he was in Kansas. And the explanation of why the date of Easter changes, only makes the matter more foggy.—Roman Chief.

Growing Tobacco in California.
E. C. Hahn, who manages the big Altschul ranch, which is situated about four miles north of Livermore, has proven beyond a doubt that tobacco can be grown in this county of excellent quality and in any quantity. For some time past Mr. Hahn has been making experiments in tobacco culture. He has long since become convinced that a soil that will grow French prunes, almonds, lemons, oranges, walnuts and olives can produce tobacco. Last year enough success was attained to justify the planting of a large crop, and it is now in excellent condition. It is located in a warm belt and was not affected by the recent cold spell. It has thrived beyond the planter's expectation, and a healthy second crop is now growing. This success, early in the spring, is seldom attained.

The future of the tobacco industry must depend in great measure on the peculiar, delicate flavor of the leaves and experiments are now being carried out with the soil that it is claimed will make California tobacco equal to the finest brands. For some time the tobacco plant has thrived in the southern part of the State, but a crop of any size has not yet been produced in Alameda County.—San Francisco Call.

War's Effect on the Sugar Crop.
WASHINGTON, D. C., April 5.—The effect of the war in Cuba on the sugar crop is becoming an interesting question to this country. Consul General Williams, at Havana, has just sent to the State Department a statement prepared by Don Joaquin Guma, a competent sugar statistician, showing that only 23,869 tons had been received of this year's crop, against 145,255 tons received at the same date last year.

Consul Hyatt, at Santiago de Cuba, reports:
"The sugar planters in this part of Cuba are grinding the unburned portion of their cane. The work is materially retarded, because plantation hand cannot be induced to work at night, fearing an attack from the insurgents. Whether planters will be allowed by the insurgents to continue sugar making, remains problematical. The greater part of the insurgent forces are now several hundred miles west of here, and it is possible that sugar-making may proceed undisturbed; if so, I predict half a crop in my consular district."

The United States has been taking between \$60,000,000 and \$70,000,000 worth of Cuban sugar. If the war continues, a considerable part of this supply will have to come from other sources. Beet-sugar growers of Europe are already making contracts to deliver their next crop at considerable advances over what they received for the last crop. A great extension of the beet-sugar industry is promised in both France and Germany.

New Goods In.
Mrs. H. S. Doyle has received and opened up her new spring stock of millinery goods—the largest and finest stock ever brought to this city. Mrs. Doyle is an experienced milliner, and she knows what to buy and how to make up goods for the ladies of this section. She has goods to suit all—rich and poor, and her prices are as low as the lowest, quality of goods considered. She would be pleased to have her lady friends call and see her. She is certain she can please them.

It is therefore ordered by the Clerk aforesaid, in vacation, that publication be made notifying him that an action has been commenced against him by petition in the Circuit Court of Cape Girardeau County, in the State of Missouri, the nature and cause of which is to obtain a divorce from the bonds of matrimony heretofore contracted between plaintiff and defendant.

And plaintiff for her cause of action says that on the 24th day of August, 1887, in the county of St. Louis, in the State of Missouri, she and the defendant were lawfully married, and that she and the defendant continued to live together as husband and wife from the said date of their marriage until the 19th day of April, 1893; that during all that time in which they lived together as husband and wife, the plaintiff faithfully demeaned herself and discharged all of her duties as the wife of the defendant, and at all times treated him with kindness and affection; that said defendant wholly disregarded his duties as the husband of the plaintiff, and that on the 19th day of April, 1893, the defendant left and deserted the plaintiff, without any cause or excuse what-soever, and has ever since said date continuously absented himself from the plaintiff, having, during all that time, done nothing towards supporting the plaintiff, or providing her with a home, and all without any cause or excuse whatever, that plaintiff is a resident of Cape Girardeau county, in the State of Missouri, and that she has resided in the said State of Missouri during all her life; that defendant is a non-resident of the State of Missouri so that the ordinary process of law cannot be served upon him.
